

Science

We will be learning about animals & their habitats. We are using scientific vocabulary & investigations.

Computing

We will be using laptops to understand online safety; create algorithms; and for general research purposes.

Physical Education

We are learning the skills, and some tactics, for team games such as hockey, football and netball.

English

We use the 'Talk 4 Writing' scheme which includes discussion; performance & creative writing. We are looking at newspapers, poetry and story writing.

French

We are learning some conversational phrases, numbers & colours.

Year 4 Curriculum Map

The Story of Britain: Autumn

Maths

We will be learning about the four operations $+$ $-$ \times \div as well as some aspects of measurement: perimeter & length.

P.S.H.E.

Building stronger relationships & problem solving.

Design & Technology

In D.T. we will be looking at old English recipes & weaving.

Topic

All of our studies this year will be linked to our topic which is: The Story of Britain.

History

We will be learning about the history of Great Britain from the Romans to modern day.

Music

We are learning about the music of Benjamin Britton

Geography

We will be learning about locations and features in the U.K. using atlases & grid references.

Art

We will be mixing colours and learning aspects of British art history.
